

# Atlas of Sustainable Development Goals 2017 From World Development Indicators

## SAVE THE DATE

World Bank Group New York Office  
SDG Atlas Side Event during the 2017 HLPF

**Tuesday, July 18, 2017**  
**8:00 – 9:45am,**  
**Landmark Room, UN Millennium Hotel**

We are delighted to invite you to an event showcasing the SDG Atlas, which will feature a technical presentation and panel discussion by senior World Bank Group Officials on 18 July 2017 during a breakfast from 8:00am to 9:45am.

### **About the Publication:**

The 2017 Atlas of Sustainable Development Goals is a new World Bank data platform and publication with maps, analyses and data visualizations charting the progress countries are making towards the 17 SDGs. Produced by the Bank's Data Group, with a broad set of Bank Group technical teams, the Atlas illustrates trends and challenges for each goal while highlighting measurement issues. The Atlas draws on World Development Indicators, a database of over 1,400 indicators for more than 220 economies produced with data from national and international statistical agencies around the world. The SDG Atlas is available online at [data.worldbank.org/sdгатlas](http://data.worldbank.org/sdгатlas) and is accompanied by interactive dashboards available at: [data.worldbank.org/sdgs](http://data.worldbank.org/sdgs)

**Please note breakfast will be served at 8:00am**

**Please RSVP to [arissafi@worldbank.org](mailto:arissafi@worldbank.org) (+1 212-317-4721)**
