OBJECTIVES

Latest methodologies and approaches

Making progress in the implementation of SDGs

Contributing to sustainable recovery of the COVID-19 pandemic

By leveraging expertise from multi-stakeholder partners

Part 1: Learn an Open Online Course "Integrated Recovery Planning and Policy Coherence towards the SDGs" and its 5 Modules.

Part 2: Learn training opportunities for integrating space-based solutions with Indigenous Knowledge including participatory community-led methods and planning for recovery that goes beyond 2030.

Part 3: Learn about local resilience assessment tool "Views from the Frontline (VFL) Lite" to understand the unique resilience challenges faced by communities, and local perspective for inclusion in governance structures.

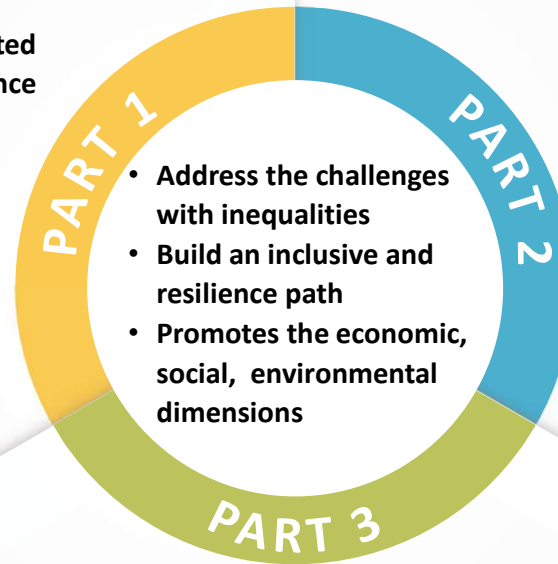

STRUCTURE

Part 1:

Learn an Open Online Course “Integrated Recovery Planning and Policy Coherence towards the SDG’s” and its 5 Modules.

Part 2:

Learn training opportunities for integrating space-based solutions with Indigenous Knowledge including participatory community-led methods and planning for recovery that goes beyond 2030.

Part 3:

Learn about local resilience assessment tool “Views from the Frontline (VFL) Lite” to understand the unique resilience challenges faced by communities, and local perspective for inclusion in governance structures.

EXPECTED OUTCOME AND NEXT STEPS

A green arrow pointing right, with a white circle at its tail.

Define key building blocks of an integrated recovery planning and policy coherence exercise towards change in the SDGs

A yellow arrow pointing right, with a white circle at its tail.

Supporting Indigenous sustainability's by developing integrated knowledge forms and applications work together without boundaries.

A blue arrow pointing right, with a white circle at its tail.

Capture the specific social, economical, and environmental threats and vulnerabilities faced by the displaced population
