Questions

- How this resonates with your context
- What are the challenges
- Any reflections

Group sharing

GROUP 1

- Love and care are elements that we have to also consider
- No national awareness
- How do we reach the most marginalized? Stigma exists

GROUP 2

- Multiple groups that can be marginalized
- We must try to make genuine efforts to reach the people
- Sharing data is very important: taking time to sit together, share knowledge
- Connecting with the poorest is a challenge
- How to connect at the local level and not only at the global

Group sharing

GROUP 3

- How do we reach the most marginalized? – Reaching PWDs and others. We are working in silos, despite that we work in similar places
- It is not only about how to the most marginalized but also the authorities and powerholders

GROUP 4

- Management of knowledge
- Language and language development
- Looking at the different roots of the reasons for this exclusion

GROUP 5

- Talked about conflicting values within organisations, how do you reconcile this differences of many sorts when pushing for inclusion

Group sharing

- Celebration of success
- Heard from very inspiring individuals and their experiences
