COVID-19 STIMULUS TRACKER
Global Observatory on Social Protection and Economic Policy Responses

High-Level Panel Discussion and Launch of the COVID-19 Stimulus Tracker: Global Observatory on Social Protection and Economic Policy Responses

07:30 – 09:00 am EDT

13 July 2021, Online

Under the UN framework for the immediate socio-economic response to COVID-19 set in April 2020, the UN five regional commissions & UNCTAD partnered to implement a joint project on “Strengthening Social Protection for Pandemic Response” funded by the development account. Among the list of the project’s practical deliverables, the COVID-19 Stimulus Tracker: Global Observatory on Social Protection and Economic Policy Responses is an interactive platform that presents COVID-19 policy responses of governments and central banks for 194 countries around the World. UNESCWA and partners are launching this global tool at the HLPF2021. This event will bring together high-level speakers from different regions to shed the light on the importance of the Observatory as a knowledge platform for governments and practitioners for peer learning, informing policy, and strengthening social protection for pandemic responses.
