"ADVANCING QUALITY EDUCATION FOR ECONOMIC AND DIGITAL TRANSFORMATION IN THE 21ST CENTURY"

11 July 2022,
07:30-08:45 am (EDT)
Online from New York

Co-organized by UNIDO,
ITU, WIPO, Austria, and
Sao Tome and Principe,
this event is part of the
High-Level Political
Forum 2022.

An educated population is key to transforming economies, building inclusive and peaceful societies and ensuring lasting protection of the planet and its natural resources.

Echoing the goals of the 2030 Agenda for Sustainable Development, this session seeks to stimulate discussions around the following topics:

- Why and how educational systems are improving technical and vocational education and introducing entrepreneurial learning.
- How modern digital technology can potentially help in building youth's cognitive, technical, social and learning abilities.
- How IP learning at incremental pace can boost innovative and entrepreneurial capacity particularly among young people.
- What youth feels is needed to advance quality education for economic and digital transformation.
