

***Ambassador Namira Negm (Dr.)***

***Director  
African Migration Observatory  
Morocco, Rabat***

- COVID19 left African States, especially LDCs in a fragile situation and despite the successes in raising funds, challenges existed in relation to vaccines and remedies availability.
- this is similar to what is facing the continent due to climate change.
- building resilience in LDCs is imperative to improve poverty situation as well as reduce migration.
- \_ AU efforts to improve the situation to boost intra african trade and improve connectivity in the continent.
- \_ importance of changing the dynamics of financing to meet the national priorities.
- moving from the abuse of africa's natural resources and diversify the conomy to create jobs and play a role in self financing.
- drawing lessons learned and enhance south south cooperation in the transition to green energy and industry.
