

TRANSFORMING OUR WORLD IN HARMONY WITH NATURE

Integrating Nature while Implementing the
UN's Sustainable Development Goals

We are privileged to offer you a resource for integrating Nature into all of the UN's Sustainable Development Goals (SDGs) and most of the targets. It consists of three books, each containing one third of the SDGs with an Executive Summary and a segment, dedicated specifically to Means of Implementation. This was created for the convenience of Ministries and civil society organizations working on more than one SDG.

The trilogy consists of input gathered from civil society worldwide over a period of 5 years. It was compiled by the UN-registered Partnership on the Rights of Nature. Integrating Nature into the Implementation of all of the SDGs.

We should be grateful, if you would forward this to your colleagues and any others working on the SDGs and if possible schools and libraries. We hope that the material we are sharing with you now will be truly helpful to you.
